Cleanroom Balancer, Model No. SBC-15

The SBC-15 is a clean room tool balancer used in medical, electronics and pharmaceutical production, as well as in production of other environmentally sensitive components. Its specially sealed aluminum case provides a Class 10 protection rating, which suits most requirements for clean rooms. In addition, the cable is sheathed in nylon to prevent metal flaking and contamination of the clean environment. It can be used with a multitude of tools including cleanroom-ready torque drivers. Also, these balancers can be fitted with a grounding wire to dissipate static electricity.

Technical Data

Model No.	Capacity	Cable Travel	Diameter of Cable	Weight
SBC-15	1.1 - 3.3 lbs.	39.4-inch	0.12-inch	2.6 lbs.
