

VARIOMAT, Drilling Machine and Screwdriver in one Tool

Versatile for the Wood Industry

- **Perfectly balanced and ergonomic handle**
- **For a wide range of applications**
- **High speeds**
- **High torque output**

The flexible VARIOMAT Screwdriver, which was specially designed for the industries of wood processing, permits the use in many different application varieties:

this tool is able to drill holes and also to assemble screws.

By using suitable accessories a full range of applications can be handled with just one tool - no matter if the tool is used for screwdriving or for drilling!

The ergonomic shape of the handle allows a good grip and assures a fatigue-proof effort over long time periods.

The speed of 2,000 rpm assures the efficient and economical operation of this All-Rounder for any wood processing.

Handheld Screwdriver pneumatic for special applications

VARIOMAT (basic model without accessories)

Screwdriving with the VARIOMAT:

Screwdriving into hardwood up to a screw shaft-diameter of 4-mm and into softwood up to a diameter of 5-mm, are the strong points of the VARIOMAT.

We offer several different design variations of the flexible pistolgrip screwdriver:

- **VARIOMAT with shut-off clutch:**

Fulfills the high accuracy demands. Screwdriver will torque out and shut off automatically after reaching the pre-set torque.

- **VARIOMAT with slip clutch:**

As soon as the preset torque is reached, the slip-clutch activates. For assemblies such as hinges on windows.

- **VARIOMAT with adapter:**

The cost-effective direct-drive solution without shut-off, simplify different tasks such as the clamping of bits.

Drilling with the VARIOMAT:

The VARIOMAT is designed for the drilling into wood up to 10-mm.

We offer keyless drill chuck or standard drill chuck as suitable accessories.
